

Dear Senators,

I am horrified and disgusted that such barbaric events like coyote-killing contests are taking place in Oregon! Oregon's wildlife is managed under the public trust doctrine which holds that wildlife is managed for the benefit of all Oregonians, and it's unethical and cruel to wantonly kill wildlife as a blood contest. Science proves that such killing contests are counterproductive.

HB 4075A is good for farmers, good for hunters, and good for wildlife and is legislation that is aligned with Oregon's values, the best available science and broad public support.

Dear Senators, please to the right, humane thing and vote for HB4075A!

Thank you.

Trudi Howell
