

Support HB 4075A.

End The blood Sport
End Predator Killing contests

As a voter and a snowbird from Eugene to Tucson AZ, I was very involved in getting legislation passed in AZ to end Killing Contests.
It was an uphill battle, but with the support of many ethical hunters and a broad coalition of citizens, we were able to expose this horrible practice for what it is.

Does not meet the ethical hunting standard if Fair Chase.
Indiscriminately kills so called nuisance animals along with hundreds of non nuisance animals .

Animals are not tracked after wounding, simply mowed down with hi tech high powered weapons.

As Ethical Hunting states..this is not a hunt, but a search and destroy mission.

Thank you

Su Neuhauser
Eugene.
