

I am writing to ask you to please support HB 4075A to end the gruesome practice of killing contests in Oregon. A select few people who want to participate in this violent and vulgar activity, yet the great majority of Oregonians are against it. There simply is no way to justify a contest to kill as many coyotes as possible. And there certainly is no science that justifies this.

Please support HB 4075A

Thank you
Andrea Kozil
