

I want to add my opposition to SJR201

This law protects the minority party at all times. Silencing the words of the minority of Oregon is not working together to better our state.

Holding the aid to the people of Umatilla county is simply wrong. If the flooding would have happened at anytime other than during session the funds would have been readily available.

Both sides of the table need to come to the table and work together on any and all legislation. The reason for the current walkout is so concerning that you feel the majority party can deny a simple vote of the people.

Thank you

Tricia Hafner
