

Opposed ~ Opposed ~ Opposed

This is totally wrong that you are trying to control our right of what constitutes a quorum because the republicans had no other option to have their voices heard when they do not have enough power by minority voting party to make sure their supporters are represented. This is a travesty to allow no voice to all voters equally by taking away the quorum requirements which helps grant a source of equality to our representation of all Oregonians — I also challenge the lawfulness of this change of protocol. As a born and raised 66 yr old Oregonian I request your denial of this change to what a quorum requires. Thank you. Sherri Parker
