

This is criminal. What the Democrats are trying to do to my beloved State should get you all put in jail. We do not want Cap and Trade. We do not want SHR201. As elected officials, you are NOT doing the will of the people. My family and I have a very long and old history of being Oregonians. Both of my aunts taught in the school house at the Salem Fairgrounds. I have ggg grandparents buried in both Salem and Stayton.

Quit tearing my beloved State apart. If you want to do the real will of the people, work on an electoral college so not everything is decided by three counties.

Please remember, you work for the people NOT for your own misinformed ego. No on Cap and Trade and No on SJR 201. Your actions will be reflected in the next election. We the people want our will.
