

Dear committee members,

I am writing tonight to state my opposition to changing the rules on quorum. These rules that protect the minority party are vital to maintaining our representation in Oregon. This supermajority has given up on working together to find common ground. The quorum rules are the only power the minority party has to say things are out of control. Do not change this rule. This rule protects all Oregonians from the tyranny of the majority.

Sincerely,

Elaine La Joie
