

Please enter the following into testimony:

Committee members,

SJR 201 is a blatant attempt to solidify single party rule. The framers of Oregon's Constitution put the quorum rule in place for a reason; to keep the majority party from running roughshod over the minority party and Oregonians. The democrats are mad because the Republicans have denied a quorum in an attempt to force the democrats to allow Oregonians to vote on whether or not they want a huge energy tax with now transparency as to where the money for carbon credits go.

Please vote down this temper tantrum.

Respectfully,
