

Sent this just moments ago to exhibits: RE SJR 201 I am OPPOSED to a simple majority for quorum purposes. since the Dem party has used this 2/3 requirement for 'taking a vacation at the state's expense' when it suited your needs, bringing up a quorum rules change now sounds more disingenuous and duplicitous than sincere.

You protested too much on how hard you try to work with your colleagues on the other side of the isle. Addressing the other points of legislative action not being attended to, that is all on you, the Democrats! YOU own it! YOU chose the path, YOU controlled the agenda, now YOU must reap the consequences. Typical in the Democrats play book, blame the other side for what you yourselves are doing. It could all be over in a heartbeat. We the people demand the right to vote on this bill.
