BACKGROUND:

House Bill 4005 (2018) established the Oregon Prescription Drug Price Transparency program (Program) to review and report on specified prescription drug pricing information in Oregon. The bill also created the Joint Interim Task Force On Fair Pricing of Prescription Drugs (Task Force). The Task Force included representation from specified stakeholders and was charged with developing a strategy to create transparency for drug prices across the entire supply chain of pharmaceutical products. The Task Force delivered its final report in October 2018 with 14 recommendations. Senate Bill 872 (2019) proposed to implement the recommendations of the Task Force.

Senate Bill 1535-B clarifies the responsibilities and authorities of the Program, and updates the timelines, composition, and charge of the Task Force.
