OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure exempts from public disclosure budgetary, administrative and statutory adjustment information received by the Oregon Business Development Department, the Oregon Department of Administrative Services and the Legislative Fiscal Office from the Oregon Tourism Commission relating to establishing the commission as a program within the Oregon Business Development Department.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, documents relating to the internal operations of the Oregon Tourism Commission would more likely be made public.
