The proposal shall identify gross earnings, investment expenses and administrative expenses, by fund or account, related to the crediting of the interest or other income.

**SECTION 21.** ORS 238.670 is amended to read:

"238.670. (1) At the close of each calendar year in which the earnings on the Public Employees Retirement Fund equal or exceed the assumed interest rate established by the Public Employees Retirement Board under ORS 238.255, the board shall set aside, out of interest and other income received through investment of the Public Employees Retirement Fund during that calendar year, such part of the income as the board may deem advisable, not exceeding seven and one-half percent of the combined total of such income, which moneys so segregated shall remain in the fund and constitute therein a reserve account. The board shall continue to credit the reserve account in the manner required by this subsection until the board determines that the reserve account is adequately funded for the purposes specified in this subsection, but the board may not credit further amounts to the reserve account if the amounts in the reserve account exceed $50 million. Such reserve account shall be maintained and used by the board to prevent any deficit of moneys available for the payment of retirement allowances, due to interest fluctuations, changes in mortality rate or, except as provided in subsection (3) or (4) of this section, other contingency. In addition, the reserve account may be used by the board for the following purposes:

(a) To prevent any deficit in the fund by reason of the insolvency of a participating public employer. Reserves under this paragraph may be funded only from the earnings on employer contributions made under ORS 238.225.

If total income available for distribution exceeds those percentages of the total accumulated contributions of employees and employers, the reserves for pensions and annuities shall participate in such excess.

(3) The board may set aside, out of interest and other income received through investment of the fund, such part of the income as the board considers necessary, which moneys so segregated shall remain in the fund and constitute one or more reserve accounts. Such reserve accounts shall be maintained and used by the board to offset gains and losses of invested capital. The board, from
time to time, may cause to be transferred from the reserve account provided for in subsection (1) of this section to a reserve account provided for in this subsection such amount as the board determines to be unnecessary for the purposes set forth in subsection (1) of this section and to be necessary for the purposes set forth in this subsection.

“(4) The board may provide for amortizing gains and losses of invested capital in such instances as the board determines that amortization is preferable to a reserve account provided for in subsection (3) of this section.

“[(5) At least 30 days before crediting any interest and other income received through investment of the Public Employees Retirement Fund to any reserve account in the fund, the board shall submit a preliminary proposal for crediting to the appropriate legislative review agency, as defined in ORS 291.371 (1), for its review and comment.]
