On page 2 of the printed bill, line 5, after the semicolon insert “creating new provisions; amending ORS 477.315;”.

Delete lines 7 through 45 and delete pages 3 through 9 and insert:

“UTILITIES

SECTION 1. Sections 2 to 8 of this 2020 Act are added to and made a part of ORS chapter 757.

SECTION 2. (1) As used in this section, ‘electric company’ has the meaning given that term in ORS 757.600.

“(2) An electric company must have and operate in compliance with a risk-based wildfire protection plan approved by the Public Utility Commission.

“(3) An electric company shall submit a risk-based wildfire protection plan to the commission every three years. The plan must, at a minimum:

“(a) Identify areas within the service territory of the electric company that are subject to a heightened risk of wildfire.

“(b) Identify a means for mitigating wildfire risk that is cost effective and reflects a reasonable balancing of mitigation costs with the resulting reduction of wildfire risk.

“(c) Identify preventive actions and programs that the electric company will carry out to minimize the risk of company facilities causing a wildfire.

“(d) Identify a protocol for the deenergizing of power lines and adjusting power system operations to mitigate wildfires, promote the safety of the public and first responders and preserve health and communication infrastructure.

“(e) Describe the procedures, standards and time frames that the electric company will use to inspect company infrastructure in areas that the company identifies under paragraph (a) of this subsection.

“(f) Describe the procedures, standards and time frames that the electric company will use to carry out vegetation management in areas that the company identifies under paragraph (a) of this subsection.

“(g) Identify the development, implementation and administration costs for the plan.

“(h) Identify the community outreach and public awareness efforts that the electric company will use before, during and after a wildfire season.

“(4) The commission, in consultation with the State Forestry Department and local emergency services agencies, shall review a wildfire protection plan that an electric company submits under this section. The commission shall:
“(a) Approve the submitted plan; or
“(b) Disapprove the submitted plan and inform the electric company of the modifications
necessary to obtain approval.
“(5) The commission shall adopt rules for the implementation of this section.
“(6) Nothing in this section prohibits the recovery of costs deferred under ORS 757.259.
“SECTION 3. (1) As used in this section, ‘consumer-owned utility’ and ‘governing body’
have the meanings given those terms in ORS 757.600.
“(2) A consumer-owned utility must have and operate in compliance with a risk-based
wildfire mitigation plan approved by the governing body of the utility. The utility shall reg-
ularly update the risk-based wildfire mitigation plan on a schedule the governing body deems
consistent with prudent utility practices.
“(3) A consumer-owned utility shall conduct a wildfire risk assessment of utility facilities.
The utility shall review and revise the assessment on a schedule the governing body deems
consistent with prudent utility practices.
“(4) A consumer-owned utility shall submit a copy of the risk-based wildfire mitigation
plan approved by the utility governing body to the Public Utility Commission to facilitate
commission functions regarding statewide wildfire mitigation planning and wildfire
preparedness.
“SECTION 4. The Public Utility Commission shall periodically convene workshops for the
purpose of helping electric companies as defined in ORS 757.600, consumer-owned utilities as
defined in ORS 757.600 and operators of electrical distribution systems to develop and share
information for the identification, adoption and carrying out of best practices regarding
wildfires, including but not limited to risk-based wildfire protection and risk-based wildfire
mitigation procedures and standards.
“SECTION 5. An electric company shall submit the first risk-based wildfire protection
plan required of the company under section 2 of this 2020 Act no later than December 31,
2020.
“SECTION 6. A consumer-owned utility shall submit the first risk-based wildfire miti-
gation plan required under section 3 of this 2020 Act to the utility governing body no later
than December 31, 2021.
“SECTION 7. (1) As used in this section, ‘electric utility’ has the meaning given that
term in ORS 757.600.
“(2) The provisions of sections 2 and 3 of this 2020 Act do not affect the terms or condi-
tions of easements held by an electric utility over private land as of the effective date of this
2020 Act.
“SECTION 8. (1) As used in this section, ‘electric utility’ has the meaning given that
term in ORS 757.600.
“(2) Sections 9, 11, 23 and 26 of this 2020 Act do not affect the terms or conditions of
easements held by an electric utility over private land as of the effective date of this 2020
Act.

“INSURANCE

“SECTION 9. (1) Insurers may adopt coverage provisions and underwriting standards to
encourage property protection approaches that:
“(a) Harden structures against wildfire damage;
“(b) Provide for the establishment and maintenance of defensible spaces;
“(c) Create access for emergency vehicles responding to wildfires; or
“(d) Create wildfire evacuation routes.
“(2) Issuers of property insurance policies may use maps and data developed by the Department of Land Conservation and Development or the State Fire Marshal for the purpose of determining terms and conditions of the policies.
“(3) The Department of Consumer and Business Services may work with the State Fire Marshal and issuers of property insurance policies to develop property protection approaches reflecting best practices for wildfire risk mitigation.

“DEFENSIBLE SPACE

“SECTION 10. The State Forestry Department shall oversee the development and maintenance of a comprehensive statewide map of wildfire risk. The map must be sufficiently detailed to allow the assessment of wildfire risk at the property-ownership level. The department shall collaborate with the Department of Land Conservation and Development, the State Fire Marshal, other state and local governments and officials, other public bodies, insurance companies and any other information sources that the State Forestry Department deems appropriate to develop and maintain the map. The department shall make the map described in this section accessible to the public in electronic form.

“SECTION 11. (1) The State Fire Marshal shall establish minimum defensible space requirements for wildfire risk reduction on lands in areas identified on the map described in section 10 of this 2020 Act as being susceptible to wildfire. The State Fire Marshal may establish different minimum defensible space requirements for homes and infrastructure on different types of land. Subject to additional local requirements, a minimum defensible space requirement that the State Fire Marshal establishes for a type of land shall apply statewide for all lands of that type that are in areas identified as susceptible to wildfire. Unless the State Fire Marshal finds good reason to impose different requirements, the State Fire Marshal shall adopt requirements that are consistent with defensible space requirements set forth in International Wildland-Urban Interface Code standards.

“(2) Except as provided in this subsection or subsection (3) of this section, the State Fire Marshal may administer and enforce the minimum defensible space requirements established under subsection (1) of this section that are applicable to the lands within the jurisdiction of a local government. A local government may contract with the State Fire Marshal for the local government to administer and enforce the minimum defensible space requirements established by the State Fire Marshal within the jurisdiction of the local government.

“(3) A local government may adopt and enforce local requirements for defensible space on lands that are greater than the minimum defensible space requirements established by the State Fire Marshal. Any local requirements that a local government adopts for defensible space must be consistent with defensible space requirements set forth in International Wildland-Urban Interface Code standards. If a local government adopts local requirements under this subsection, within the jurisdiction of the local government the State Fire Marshal may administer and enforce the minimum defensible space requirements established by the State Fire Marshal under subsection (1) of this section and the local government may enforce
requirements adopted under this subsection that are greater than the minimum defensible space requirements established by the State Fire Marshal. The State Fire Marshal and the local government shall coordinate any inspection and enforcement efforts described in this subsection.

“(4) If a local government contracts under subsection (2) of this section to administer and enforce minimum defensible space requirements established by the State Fire Marshal within the jurisdiction of the local government, the local government shall periodically report to the State Fire Marshal regarding whether lands within the jurisdiction of the local government are in compliance with the applicable minimum defensible space requirements. The reports shall state the extent of compliance for each property, the change in degree of compliance since the previous report and any other information required by the State Fire Marshal by rule. In addition to requiring periodic reports, the State Fire Marshal may at any time require a local jurisdiction to report the defensible space conditions for any lands on which minimum defensible space requirements are enforced by the local government.

“(5) The State Fire Marshal shall oversee and coordinate the development and maintenance of a comprehensive statewide map showing lands for which the State Fire Marshal has established minimum defensible space requirements under subsection (1) of this section, the requirements applicable to those lands and the degree of compliance on those lands with the applicable requirements.

“(6) The State Fire Marshal shall administer and enforce a program to provide financial, administrative, technical or other assistance to a local government to facilitate the administration and enforcement of minimum defensible space requirements within the jurisdiction of the local government. A local government shall expend financial assistance provided by the State Fire Marshal under this subsection to give priority to the creation of defensible space on lands owned by communities of color, indigenous communities, persons with limited proficiency in English and persons of lower income as defined in ORS 456.055.

“SECTION 12. The Wildfire Defensible Space Fund is established in the State Treasury, separate and distinct from the General Fund. Interest earned by the Wildfire Defensible Space Fund shall be credited to the fund. Moneys in the fund are continuously appropriated to the State Fire Marshal for the purpose of carrying out the local government financial assistance program described in section 11 of this 2020 Act.

“SECTION 13. (1) The State Fire Marshal shall annually report regarding the status of State Fire Marshal and local government activities for carrying out section 11 of this 2020 Act to the Legislative Assembly in the manner provided in ORS 192.245 on or before the date of convening of the regular session of the Legislative Assembly as specified in ORS 171.010.

“(2) The report shall include, but need not be limited to:

“(a) A status report regarding the establishment, administration and enforcement of defensible space requirements;

“(b) The amount of moneys expended during the year for the establishment, administration or enforcement of defensible space requirements;

“(c) The amount of moneys expended during the year for the suppression of fires on wildland-urban interface lands; and

“(d) Any recommendations of the State Fire Marshal for legislative action, including but not limited to current or future resource needs for establishing, administering or enforcing defensible space requirements.
**HEALTH EFFECTS**

*SECTION 14.* (1) As used in this section, ‘smoke filtration system’ means an air filtration system capable of removing particulates and other harmful components of wildfire smoke.

“(2) The Oregon Health Authority shall establish a program to increase the availability of smoke filtration systems among persons vulnerable to the health effects of wildfire smoke who reside in areas susceptible to wildfire smoke. The authority may issue grants for the installation of smoke filtration systems in residential buildings, commercial buildings or buildings open to the public in areas susceptible to wildfire smoke. The authority shall give grant priority to installations in residential buildings occupied by persons of lower income as defined in ORS 456.055 who are vulnerable to the health effects of wildfire smoke.

“(3) The authority may adopt rules establishing standards for smoke filtration systems obtained with grant moneys received under this section including, but not limited to, minimum acceptable efficiency for the removal of particulates and other harmful substances generated by wildfires. The authority shall obtain information and advice from the Task Force on Wildfire Smoke Health Effects established under section 19 of this 2020 Act.

*SECTION 15.* Section 14 of this 2020 Act is amended to read:

**Sec. 14.** (1) As used in this section, ‘smoke filtration system’ means an air filtration system capable of removing particulates and other harmful components of wildfire smoke.

“(2) The Oregon Health Authority shall establish a program to increase the availability of smoke filtration systems among persons vulnerable to the health effects of wildfire smoke who reside in areas susceptible to wildfire smoke. The authority may issue grants for the installation of smoke filtration systems in residential buildings, commercial buildings or buildings open to the public in areas susceptible to wildfire smoke. The authority shall give grant priority to installations in residential buildings occupied by persons of lower income as defined in ORS 456.055 who are vulnerable to the health effects of wildfire smoke.

“(3) The authority may adopt rules establishing standards for smoke filtration systems obtained with grant moneys received under this section including, but not limited to, minimum acceptable efficiency for the removal of particulates and other harmful substances generated by wildfires. The authority shall obtain information and advice from the Task Force on Wildfire Smoke Health Effects established under section 19 of this 2020 Act.*

*SECTION 16.* The amendments to section 14 of this 2020 Act by section 15 of this 2020 Act become operative on December 31, 2021.

*SECTION 17.* The Wildfire Smoke Abatement Fund is established in the State Treasury, separate and distinct from the General Fund. Interest earned by the Wildfire Smoke Abatement Fund shall be credited to the fund. Moneys in the fund are continuously appropriated to the Oregon Health Authority for the purpose of carrying out the program required under section 14 of this 2020 Act.

*SECTION 18.* In addition to and not in lieu of any other appropriation, there is appropriated to the Oregon Health Authority, for the biennium ending June 30, 2021, out of the General Fund, the amount of $1,000,000 for deposit in the Wildfire Smoke Abatement Fund.

*SECTION 19.* (1) The Task Force on Wildfire Smoke Health Effects is established.

“(2) The task force consists of seven members appointed by the Director of the Oregon Health Authority and having such qualifications as the director deems appropriate.
“(3) The task force shall identify and consult with stakeholders to:
“(a) Identify barriers to the installation of smoke filtration systems in areas susceptible
to wildfire smoke, and potential solutions to identified barriers;
“(b) Determine the extent to which renters are able to take advantage of smoke filtration
systems; and
“(c) Address other issues relevant to making smoke filtration systems available to per-
sons of lower income in areas susceptible to wildfire smoke.
“(4) The task force shall provide information and advice to the Oregon Health Authority
regarding standards for smoke filtration systems described in section 14 of this 2020 Act.
“(5) A majority of the members of the task force constitutes a quorum for the trans-
action of business.
“(6) Official action by the task force requires the approval of a majority of the members
of the task force.
“(7) The task force shall elect one of its members to serve as chairperson.
“(8) If there is a vacancy for any cause, the director shall make an appointment to be-
come immediately effective.
“(9) The task force shall meet at times and places specified by the call of the chairperson
or of a majority of the members of the task force.
“(10) The task force may adopt rules necessary for the operation of the task force.
“(11) The task force shall submit a report in the manner provided in ORS 192.245, and
may include recommendations for legislation, to the Governor, the director and a legislative
committee related to natural resources no later than September 15, 2021.
“(12) The Oregon Health Authority shall provide staff support to the task force.
“(13) Members of the task force are not entitled to compensation or reimbursement for
expenses and serve as volunteers on the task force.

SECTION 20. Section 19 of this 2020 Act is repealed on December 31, 2021.

EMERGENCY MANAGEMENT

SECTION 21. The Office of Emergency Management shall establish six positions within
the office whose responsibilities include, but need not be limited to, administering the office’s
mitigation and recovery efforts for wildfire emergencies in assigned regions of this state.

TREATMENT PROGRAM

SECTION 22. The Legislative Assembly finds and declares that:
“(1) Fuel reduction is a critical and urgent need for much of the forestland and rangeland
in this state.
“(2) Fuel reduction on forestland and rangeland in this state is necessary to reduce
wildfire risk to communities, habitats and the economy.
“(3)(a) It is the goal of this state to address accumulated fuel on forestland and rangeland
during a 20-year period.
“(b) It is the policy of this state that state agencies are to work in coordination and
partnership with federal agencies having land management duties to prioritize and assist in
the achievement of the goal established in this subsection.
“(c) Significant public investment will be necessary to achieve the goal established in this subsection.

“(d) State agencies and federal agencies are encouraged to seek and identify public funding and to leverage public funding with other revenue sources to carry out the goal established in this subsection.

“(e) The development of a plan to achieve the goal established in this subsection requires a strong partnership among state agencies, federal agencies, nongovernmental entities and landowners. The State Forestry Department is the appropriate agency to have primary responsibility for fostering that partnership and facilitating the development of the plan.

“(4) Short-term opportunities exist for making reductions in fuel levels and reductions of other wildfire risks. This state should invest in those opportunities while engaged in the program development process described in section 23 of this 2020 Act.

SECTION 23. (1) The State Forestry Department shall cooperate with other state agencies, federal agencies, nongovernmental entities and landowners to develop and implement a program to treat forestlands and rangelands in this state for the reduction of fuel load levels and reduction of other wildfire risks.

“(2) The program described in subsection (1) of this section must:

“(a) Specify types and levels of treatment and fuel load levels appropriate for achieving program goals;

“(b) Provide for, but not be limited to, an expansion of department activities for the restoration of federal forestlands within this state including, but not limited to, activities under ORS 526.274 and 526.275;

“(c) Be designed to evaluate and prioritize the carrying out of treatment on any forestlands and rangelands in this state without regard to ownership;

“(d) Maximize the use of state and federal resources to improve coordination and expedite implementation of forestland and rangeland treatments;

“(e) Identify for biennial budget requests the capacity that must exist within state government in order to meet the treatment goals of the program; and

“(f) Identify the appropriate state agency to coordinate and oversee rangeland treatments.

“(3) The program described in subsection (1) of this section must provide for the department to coordinate with managers of federal lands and private landowners to implement fuel reduction treatments on lands that are in the four highest relative importance categories identified in the United States Forest Service report titled ‘Pacific Northwest Quantitative Wildfire Risk Assessment: Methods and Results’ and dated April 9, 2018, or on which treatment would provide a substantial benefit to this state.

“(4) The program described in subsection (1) of this section must provide that for projects on federal land:

“(b) Treatment may not include commercial thinning on:

“(A) Inventoried roadless areas;

“(B) Riparian reserves identified in the Northwest Forest Plan or in Bureau of Land Management resource management plans;
“(C) Late successional reserves, except to the extent consistent with the 2011 United States Fish and Wildlife Service Revised Recovery Plan for the Northern Spotted Owl (Strix occidentalis caurina);

“(D) Areas protected under the federal Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.), national recreation areas, national monuments or areas protected under ORS 390.805 to 390.925;

“(E) Designated critical habitat for species listed as threatened or endangered under the Endangered Species Act of 1973 or by the State Fish and Wildlife Commission under ORS 496.172, unless commercial thinning is already allowed under an existing environmental review or recognized habitat recovery plan; or

“(F) Federally designated areas of critical environmental concern or federally designated wilderness study areas.

“(c) Priority is to be given to:

“(A) Treatments that have received approval under the National Environmental Policy Act (42 U.S.C. 4321 et seq.);

“(B) The completion of restoration treatment on lands where commercial harvesting has occurred; and

“(C) The treatment of lands on which there are insufficient commercial timber resources to offset the cost of restoration activities.

“(5) For treatment projects on private lands, the program described in subsection (1) of this section must provide for the department to work with landowners and nongovernmental entities to identify appropriate treatments and provide financial assistance for those treatments.

“(6) The department shall determine whether state policy presents barriers to undertaking increased implementation of treatment projects on private lands.

“(7) The department shall ensure that forestland and rangeland treatment projects under the program described in subsection (1) of this section are carried out in coordination with local collaborative groups, if any, Oregon State University and affected cities and counties.

“(8) The department shall develop consistent performance measures and condition-based metrics for monitoring and communicating the effectiveness of state investments and project actions in mitigating the risk of wildfire.

“(9) The program described in subsection (1) of this section must provide for the department to identify workforce development needs and develop funding proposals for those needs, including but not limited to program funding proposals to ensure adequate contracting capacity for undertaking increased implementation of the program.

**SECTION 24.** The Forestland and Rangeland Treatment Fund is established in the State Treasury, separate and distinct from the General Fund. Interest earned by the Forestland and Rangeland Treatment Fund shall be credited to the fund. Moneys in the fund are continuously appropriated to the State Forestry Department for the purpose of carrying out oversight of and forestland and rangeland treatment under the program described in section 23 of this 2020 Act.

**SECTION 25.** The State Forestry Department shall report regarding the status of program development and implementation under section 23 of this 2020 Act to an interim committee of the Legislative Assembly related to natural resources, in the manner provided under ORS 192.245, no later than December 1, 2020. The report must include, but need not
be limited to, a summary of progress in developing program components regarding project
selection.

“PROTECTION OF LAND

SECTION 26. (1) The State Forester, in collaboration with the State Fire Marshal, state
to agencies and local governments as defined in ORS 174.116, shall adopt rules estimating
baseline levels of wildfire protection for lands that are outside of forest protection districts
and susceptible to wildfire. When establishing the baseline levels for lands, the State
Forester shall ensure that the levels are adapted to reflect regional conditions. A county, in
collaboration with the State Forester and the State Fire Marshal, may work to ensure that
all lands within the county that are outside of forest protection districts and susceptible to
wildfire are provided with wildfire protection services at the applicable baseline level or a
higher level. As used in this subsection, ‘forest protection districts’ means lands designated
in State Forester rules as provided under ORS 477.225.

“(2) A county, in collaboration with the State Forester and the State Fire Marshal, may:

“(a) Assist landowners, individuals and businesses with forming jurisdictions to provide
wildfire protection;

“(b) Assist landowners, individuals, businesses and jurisdictions with obtaining expansion
of or other changes to boundaries or facility locations of jurisdictions that provide wildfire
protection;

“(c) Assist jurisdictions to expand or adjust jurisdiction service boundaries to ensure
adequate wildfire protection for lands; and

“(d) Assist jurisdictions in developing wildfire protection facilities, equipment, training
and other resources adequate to ensure that the jurisdiction provides timely and effective
wildfire protection at the baseline level or higher on lands described in subsection (1) of this
section throughout the jurisdiction.

“(3) The State Forester may provide financial assistance to counties for carrying out
county duties under subsection (2) of this section from any funds made available to the State
Forester and designated for that purpose.

SECTION 27. A county shall ensure no later than January 1, 2025, that all lands de-
scribed in section 26 (1) of this 2020 Act within the county have baseline level or higher
wildfire protection as described in section 26 of this 2020 Act.

SECTION 28. ORS 477.315 is amended to read:

477.315. As used in ORS 477.315 to 477.325:

“(1) ‘Rangeland’ means any land:

“(a) That is located in that part of the state lying easterly of the summit of the Cascade
Mountains;

“(b) That has not been classified as Class 1, Class 2 or Class 3 forestland under ORS 526.305 to
526.370; and

“(c) That contains isolated tracts of forestland not so classified or not within a
forest protection district, or that is primarily land used for cultivating crops, rangeland, unde-
veloped land or undeveloped area containing sagebrush, juniper and similar growths.

“(2) ‘Rangeland protection association’ means an entity that has the purpose of protecting
rangeland from fire and is:
“(a) Organized by owners of rangeland that is located within a rangeland protection system established under ORS 477.320 and lies wholly outside any forest protection district; or
“(b) Organized with the approval of a county governing body to be a cost-neutral part of the emergency management program in a county having 200,000 or more acres of rangeland that are outside any forest protection district and are not protected by an association formed under paragraph (a) of this subsection.

“FUNDING STUDY

SECTION 29. (1) The State Forestry Department shall contract for the services of a private consultant to evaluate and make findings regarding:
“(a) Wildfire protection and suppression information, including but not limited to the availability, accuracy and utility of the information;
“(b) The relative value delivered to public and private sectors from state-funded wildfire suppression services, including but not limited to social, ecological and economic benefits;
“(c) Costs of Oregon wildfire protection and wildfire protection in similarly situated states, adjusted to common bases suitable for comparison; and
“(d) Economic aspects of wildfire protection and suppression that vary within regions of this state.
“(2) The consultant shall develop recommendations that include but need not be limited to:
“(a) Possible means for producing wildfire protection and suppression information in a manner that maximizes the value of the information without undue burdens on information suppliers; and
“(b) Possible methods for allocating wildfire protection and suppression costs to achieve equity in the distribution of costs and benefits.
“(3) The consultant shall report the findings and recommendations described in this section to the Governor and an interim committee of the Legislative Assembly related to natural resources in the manner provided by ORS 192.245 no later than September 15, 2022.

SECTION 30. Section 29 of this 2020 Act is repealed on December 31, 2022.

“JOINT PARTNERSHIPS

SECTION 31. The Governor may, as the Governor deems appropriate, authorize joint partnerships between state and federal agencies to administer and enforce a wildfire strategy program based on the recommendations contained in the ‘November 2019: Report and Recommendations’ of the Governor’s Council on Wildfire Response.

“COUNCIL

SECTION 32. The Governor may assign duties to the Governor’s Council on Wildfire Response as the Governor deems appropriate to assist state and local agencies and officials to oversee and assist in the implementation of sections 2 to 27 and 29 to 31 of this 2020 Act and the amendments to ORS 477.315 by section 28 of this 2020 Act or of other wildfire risk reduction programs. The council’s duties may include, but need not be limited to, providing
advice, suggesting priorities, recommending future actions and providing coordination with federal agencies.

“SECTION 33. Section 32 of this 2020 Act is repealed on January 2, 2022.

“SECTION 34. (1) As used in this section, ‘sustainable’ means short-term and long-term financial stability that provides the ability to implement, carry out, expand and maintain activity.

“(2) The Governor’s Council on Wildfire Response shall report detailed recommendations of the council for a sustainable model for funding a comprehensive wildfire strategy that is consistent with the recommendations contained in the ‘November 2019: Report and Recommendations’ of the council.

“(3) The council shall report its recommendations to the Legislative Assembly as provided in ORS 192.245, and to the Governor, no later than October 31, 2020.

“(4) In developing recommendations and preparing the report described in this section, the council:

“(a) Shall cooperate with relevant state agencies including, but not limited to, the State Forestry Department, the State Fire Marshal, the Oregon Health Authority, the Office of Emergency Management, the Department of Land Conservation and Development, the Department of Consumer and Business Services, the State Department of Fish and Wildlife, the Department of Environmental Quality and the Oregon Department of Administrative Services;

“(b) Shall invite comments, advice or assistance from relevant federal agencies including, but not limited to, the United States Forest Service and the Bureau of Land Management;

“(c) May contract with outside consultants and experts; and

“(d) Shall use the regular meetings of the council as a forum for receiving input from council members and the public regarding content for the report.

“CAPTIONS

“SECTION 35. The unit captions used in this 2020 Act are provided only for the convenience of the reader and do not become part of the statutory law of this state or express any legislative intent in the enactment of this 2020 Act.

“EMERGENCY CLAUSE

“SECTION 36. This 2020 Act being necessary for the immediate preservation of the public peace, health and safety, an emergency is declared to exist, and this 2020 Act takes effect on its passage.”.
