

**A-Engrossed**  
**Senate Bill 1563**

Ordered by the Senate February 7  
Including Senate Amendments dated February 7

Sponsored by Senator GOLDEN, Representative MARSH; Senators FREDERICK, GELSER, MANNING JR,  
TAYLOR (Pre-session filed.)

**SUMMARY**

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure.

Amends requirements for limited renewable energy technician license.  
Takes effect on 91st day following adjournment sine die.

**A BILL FOR AN ACT**

1  
2 Relating to the limited renewable energy technician license; amending ORS 479.630; and prescribing  
3 an effective date.

4 **Be It Enacted by the People of the State of Oregon:**

5 **SECTION 1.** ORS 479.630 is amended to read:

6 479.630. If *[the]* a person pays the applicable application fee required under ORS 479.840 and  
7 complies with ORS 479.510 to 479.945 and the rules adopted under ORS 455.117 and 479.510 to  
8 479.945, the Department of Consumer and Business Services shall issue:

9 (1) An electrical contractor's license to a person engaging in or carrying on a business of mak-  
10 ing electrical installations.

11 (2) A general supervising electrician's license to a person who:

12 (a) Passes a written examination prepared by the Electrical and Elevator Board and adminis-  
13 tered by the department; and

14 (b) Submits proof satisfactory to the board that the person has had at least four years of expe-  
15 rience as a general journeyman electrician or its equivalent, as determined by the board by rule, in  
16 installing, maintaining and repairing electrical wires and equipment.

17 (3) A limited supervising electrician's license to a person who qualifies under this subsection.  
18 A person licensed under this subsection is authorized to supervise the class of electrical work in-  
19 cluded in the branch of the electrical trade and for which the person has passed the examination  
20 administered by the department. A person qualifies under this subsection if the person:

21 (a) Passes a written examination prepared by the board and administered by the department; and

22 (b) Submits proof satisfactory to the board that the person has had at least four years of spe-  
23 cialized experience in a recognized branch of the electrical trade on the journeyman level.

24 (4) A general journeyman electrician's license to a person who:

25 (a) Passes a written examination prepared by the board and administered by the department; and

26 (b) Submits proof satisfactory to the board that:

27 (A) The person has had at least four years of general experience as an apprentice or its equiv-  
28 alent, as determined by the board by rule, in installing, maintaining and repairing electrical wires

**NOTE:** Matter in **boldfaced** type in an amended section is new; matter *[italic and bracketed]* is existing law to be omitted.  
New sections are in **boldfaced** type.

1 and equipment, including not fewer than 1,000 hours in wiring on single or multifamily dwelling  
2 units; or

3 (B) If the person is licensed as a limited residential electrician under subsection (14) of this  
4 section, subsequent to receiving that license, the person has worked for at least two years as a  
5 limited residential electrician and subsequent to those two years has completed an additional two  
6 years' experience as an apprentice or its equivalent, as determined by the board by rule, for that  
7 period of apprenticeship time worked exclusively in installing, maintaining and repairing electrical  
8 wires and equipment in the commercial and industrial branches of the electrical trade under the  
9 supervision of a licensed electrical contractor.

10 (5) A limited journeyman electrician's license to a person who qualifies under this subsection.  
11 A person licensed under this subsection is authorized to perform the class of electrical work in-  
12 cluded in the branch of the electrical trade for which the person has passed the examination ad-  
13 ministered by the department. A person qualifies under this subsection if the person:

14 (a) Passes a written examination prepared by the board and administered by the department; and

15 (b)(A) Except as provided in subparagraph (B) of this paragraph, submits proof satisfactory to  
16 the board that the person has had at least four years of specialized experience as an apprentice or  
17 its equivalent, as determined by the board by rule, in a recognized branch of the electrical trade;  
18 or

19 (B) If applying for licensing as a limited journeyman sign electrician or limited journeyman stage  
20 electrician, submits proof satisfactory to the board that the person has had at least two years of  
21 specialized experience as an apprentice or its equivalent, as determined by the board by rule, in the  
22 sign or stage branch of the electrical trade.

23 (6) A limited elevator journeyman license to a person who qualifies under this subsection. A  
24 person licensed under this subsection is authorized to install, maintain and repair elevators, in-  
25 cluding all electrical and mechanical systems. A person qualifies under this subsection if the person  
26 has completed an elevator apprenticeship program, including both electrical and mechanical training  
27 components, approved by the board by rule and the person submits an application for licensure to  
28 the board in writing. A person issued a license under this subsection is exempt from continuing ed-  
29 ucation requirements established under ORS 455.117 and 479.680.

30 (7) An electrical apprentice's license to a person who has complied with ORS 660.002 to 660.210  
31 as an electrical apprentice.

32 (8) An electrical apprentice's license to a trainee toward a limited residential electrician's li-  
33 cense who has complied with ORS 660.002 to 660.210 as an electrical apprentice.

34 (9) An electrical apprentice's license to a trainee toward a limited journeyman's license in a  
35 recognized branch of the electrical trade who is employed by an employer who also:

36 (a) Employs a holder of either a general journeyman electrician's license or a limited  
37 journeyman electrician's license; and

38 (b) Conducts an electrical training program in a recognized branch of the electrical trade ap-  
39 proved by the board as being a training program that will adequately prepare the trainee for the  
40 limited journeyman's license.

41 (10) A limited maintenance electrician's license to a person who qualifies under this subsection.  
42 A person licensed under this subsection is authorized to maintain, repair and replace electrical in-  
43 stallations, including electrical components, required on the premises of industrial plants, and  
44 maintain, repair and replace electrical installations on systems that are less than 600 volts phase  
45 to phase, including electrical components, required on the premises of commercial office buildings,

1 buildings occupied by the state or a local government entity or facilities designated by the board.

2 The following apply to this subsection:

3 (a) A person qualifies under this subsection if the person:

4 (A) Passes a written examination prepared by the board and administered by the department on  
5 repair, replacement and maintenance of equipment of the type and nature normally used in an in-  
6 dustrial plant, commercial office building or government building and on the use of testing equip-  
7 ment; and

8 (B)(i) Completes a two-year training program approved by the board that provides for training  
9 and supervision of the trainee or apprentice; or

10 (ii) Submits proof satisfactory to the board that the person has had sufficient experience and  
11 related educational training in the repair, replacement and maintenance of electrical wiring and  
12 equipment of the type and nature used in an industrial plant, commercial office building or govern-  
13 ment building, as determined by the board or by an appropriate local apprenticeship committee re-  
14 cognized by the State Apprenticeship and Training Council.

15 (b) An annual inspection of the premises upon which electrical work is performed by persons  
16 licensed under this subsection [*shall*] **must** be made by the electrical inspector for an annual fee  
17 determined by the board by rule, based upon the time required for the inspection, payable to the  
18 department.

19 (c) A person licensed under this subsection may be employed directly by the owner, or owner's  
20 agent, of any government building or commercial office building. A building owner or owner's agent  
21 need not be licensed under this section to supervise a limited maintenance electrician.

22 (d) The department, in consultation with the board, shall adopt rules defining government  
23 buildings and commercial office buildings subject to this subsection.

24 (11) A limited building maintenance electrician's license to a person who qualifies under this  
25 subsection. The following apply to this subsection:

26 (a) A person licensed under this subsection is authorized to maintain, repair and replace the  
27 following electrical installations required on the premises of commercial office buildings, buildings  
28 occupied by the state or a local government entity or facilities designated by the board in electrical  
29 systems not exceeding 300 volts to ground:

30 (A) Electrical appliances;

31 (B) Light switches;

32 (C) Light fixtures;

33 (D) Fans;

34 (E) Receptacles; and

35 (F) Fluorescent ballasts.

36 (b) A person qualifies under this subsection if the person:

37 (A) Passes a written examination prepared by the board and administered by the department on  
38 maintenance, repair and replacement of equipment of the type and nature normally used in a com-  
39 mercial office building or government building and on the use of testing equipment; and

40 (B) Submits proof satisfactory to the board that the person has:

41 (i) Had sufficient experience in the maintenance, repair and replacement of electrical wiring and  
42 equipment of the type and nature normally used in a commercial office building or government  
43 building; or

44 (ii) Completed a one-year training course, with classroom and on-the-job training components  
45 approved by the board, on the maintenance, repair and replacement of electrical wiring and equip-

1 ment of the type and nature normally used in a commercial office building or government building.

2 (c) An annual inspection of the premises upon which electrical work is performed by persons  
3 licensed under this subsection [*shall*] **must** be made by the electrical inspector for an annual fee  
4 determined by the board by rule, based upon the time required for the inspection, payable to the  
5 department, or the inspection [*shall*] **must** be performed under an electrical master permit program.

6 (d) Building owners may perform work regulated by this subsection and for which a license is  
7 required under this subsection without obtaining a license.

8 (e) A person who owns more than 50 percent of a corporation that controls a building is a  
9 building owner.

10 (f) A person licensed under this subsection may be employed by the owner of a commercial office  
11 building or the owner's agent. A building owner or owner's agent need not be licensed under this  
12 section to supervise a limited building maintenance electrician.

13 (12) A limited maintenance specialty contractor license to a person who qualifies under this  
14 subsection. A person licensed under this subsection is authorized to engage in the electrical work  
15 related to the repair, service, maintenance, installation or replacement of existing, built-in or per-  
16 manently connected appliances, fluorescent ballasts or similar equipment and to employ individuals  
17 to engage in that work. This subsection does not authorize the installation of appliances, ballasts  
18 or other equipment if there is no existing installation of similar equipment. A person qualifies under  
19 this subsection if the person:

20 (a) Submits proof satisfactory to the board that the person has had sufficient experience in the  
21 type of work permitted under the license issued under this subsection; and

22 (b) Maintains with the board a current list of all individuals employed by the person to engage  
23 in work permitted under this subsection.

24 (13) A limited pump installation specialty contractor license to a person who qualifies under this  
25 subsection. A person licensed under this subsection is authorized to engage in electrical work re-  
26 lated to the testing, repair, service, maintenance, installation or replacement of new or existing  
27 pump equipment for potable or irrigation water systems, sump pumps, effluent pumps and ground  
28 water pumps on residential and agricultural property and to employ individuals to engage in such  
29 work. A person qualifies under this subsection if the person:

30 (a) Submits proof satisfactory to the board that the person has had sufficient experience in the  
31 type of work permitted under the license issued under this subsection; and

32 (b) Maintains with the board a current list of all individuals employed by the person to engage  
33 in work permitted under this subsection.

34 (14) A limited residential electrician's license to a person who qualifies under this subsection.  
35 A person licensed under this subsection is authorized to perform the class of electrical work in-  
36 cluded in the branch of the electrical trade for which the person has passed the examination ad-  
37 ministered by the department and approved by the board. However, a person licensed under this  
38 subsection shall perform the electrical work allowed by the license only on single and multifamily  
39 dwelling units not exceeding three floors above grade. For purposes of this subsection, the first floor  
40 of a building is the floor that is designed for human habitation and that has 50 percent or more of  
41 its perimeter level with or above finished grade of the exterior wall line. A person qualifies under  
42 this subsection if the person:

43 (a) Has received the same number of hours of electrical safety training as required by rule for  
44 an electrical apprentice or its equivalent and has received training in electrical theory;

45 (b) Submits documented proof to the board of at least two years of apprenticeship or trainee

1 experience in residential wiring of single and multifamily dwelling units or its equivalent, as deter-  
2 mined by the board by rule; and

3 (c) Passes a written examination prepared by the board and administered by the department.

4 (15) A limited renewable energy contractor license to a person who:

5 (a) Employs at least one full-time renewable energy technician; and

6 (b) Does not engage in electrical work other than work that may be performed by a limited  
7 renewable energy technician. A limited renewable energy contractor may not make, direct, supervise  
8 or control the making of an electrical installation unless the contractor is licensed for that activity.

9 (16) A limited renewable energy technician license to a person who qualifies under this sub-  
10 section. A person qualifies for licensing as a limited renewable energy technician if the person  
11 completes a two-year apprenticeship program and passes an examination approved by the board. A  
12 person licensed under this subsection may, while in the employ of a licensed electrical contractor  
13 or a limited renewable energy contractor:

14 *[(a) Install, maintain, replace or repair electrical wiring and electrical products that convey or op-  
15 erate on renewable electrical energy not exceeding 25 kilowatts AC; and]*

16 *[(b) Make electrical installations not exceeding 25 kilowatts AC:]*

17 *[(A) On devices using renewable energy involving wind, solar energy systems, micro-  
18 hydroelectricity, photovoltaic systems or fuel cells.]*

19 *[(B) Up to the load side of an inverter.]*

20 *[(C) To connect generators that are sized to facilitate the inverter in an off-grid system.]*

21 **(a) Install, maintain, replace or repair electrical wiring and electrical products that con-  
22 vey energy from or operate on renewable electrical energy generation systems that use wind,  
23 solar energy systems, microhydroelectricity, photovoltaic systems or fuel cells and that do  
24 not exceed 50 kilowatts AC; and**

25 **(b) Make, on renewable electrical energy generation systems that use wind, solar energy  
26 systems, microhydroelectricity, photovoltaic systems or fuel cells and that do not exceed 50  
27 kilowatts AC, these connections:**

28 **(A) All DC wiring and DC connections to the load side of an inverter;**

29 **(B) All AC wiring and AC connections to the termination of the factory-provided inter-  
30 connecting cables that are outside of a distribution panelboard; and**

31 **(C) Connections to generators that are sized to facilitate the inverter in an off-grid sys-  
32 tem.**

33 **SECTION 2. This 2020 Act takes effect on the 91st day after the date on which the 2020  
34 regular session of the Eightieth Legislative Assembly adjourns sine die.**

35
