

Please do not penalize rental home owners in an effort to help tenants. I oppose the changes included in LC 45 because they are not fair. I am a taxpayer and citizen too. I should not have to carry the costs of my rental home so someone else can live there for free. I am providing a service and deserve compensation for it. Instead, the state should provide renters with financial assistance so they CAN pay their rent. This would be far more fair and not harm one citizen instead of another.

Sincerely,

Melissa Moore

Rental home owner in Portland
