

My name is Sherri Yoakum. I live in Salem, Oregon and have an 8 year old son named Adam who has down syndrome. He is non verbal and if hospitalized due to covid 19, he would need me or a family member with him to cope and heal. He cannot be alone. He would not understand and panic.

Please support Senate Bill 1606 because no Oregonian with disabilities should be without needed support in the hospital.

Thank you,
Sherri Yoakum
