Subject: Statement in support of SB 1606
Date: Wednesday, June 24, 2020 8:38:27 PM

I write in support of SB 1606 because I am a parent of a wonderful 20-year-old son with disabilities. No Oregonian with a disability should be without needed support in a hospital. My son has significant health issues and every time he has spent time in a hospital, family members have been there to make the time more normal and less frightening. Abrupt changes to daily routines, like being in a hospital, are very stressful and confusing to many people with a disability, not just my son.

Thank you, Audrey Hirsch, Stayton
