---

My name is Yvette Imel. I have been DD foster care provider since 2004. My clients are very in and out of the hospital. They all 3 are non verbal and have different levels of communication. When they goto the hospital it is vital as their primary care provider I be present to advocate for their care, routine, safety, and health. They are very complicated in their care from all 4 fatal 4 in 2 of my clients. To very behavioral self harm as well. I strive to keep them safe and if they need admitted to a hospital for their safely(LIFE) I have dedicated myself to them first of all and to their parents to make sure they recieve the care they need. I WILL STAY WITH THEM!

Thank you for listening  
Long term care provider
