

My name is Karen Clark I am a resident of Redmond ,Oregon. I'm in support of senate Bill 1606 , Because no Oregonian with a disability should be alone in the hospital. I have with adults with IDD for ten years. I feel staff being with them while they are in the hospital would be a comfort to them. Being in the hospital can be a scary time for for people who have IDD . Staff would ease this time for them. Thank You for your time.

Sincerely,

Karen Clark
