

Dear Joint Committee,

As a small business owner, I would like to urge you, in the strongest way possible, to include Covid-19 litigation liability protections within HB4212. We value our employees and are doing the responsible things to protect our workers, but unfortunately there is no way to completely eliminate the risk from this virus. This is why we need these liability protections.

Please answer the call to add these needed litigation liability protections to HB4212.

Ryan Landon
