

There are far too many unknowns about COVID 19 to lay liability on any one entity or person for the contract or transmission of the virus. Please establish law protecting individuals and businesses from litigation and the need for extra insurance. People and businesses carry enough weight already. Please protect us from people looking to take money for something that cannot yet be proven. The unknowns of COVID-19 give scavengers too much advantage, at the expense of the people.  
Thank you.

Melissa
