

Hello,

I am writing in support of HB 4203 which disallows police to use force that limits a person's ability to breathe.

I highly agree and support statement (3) in Subsection 2: " The use by a peace officer of force that impedes the ability of a person to breathe is not reasonable under any circumstance."

The main focus of the police should be de-escalation and protection of their community.

Thank you,
