

Co-Chairs Kotek and Courtney,

My name is Kristal Fiser and I work for United Parcel Service (UPS). I support an amendment to HB 4212 that would provide temporary and targeted liability protections to entities that are following state and federal public health guidelines and rules to reduce the risk of COVID-19 exposure. I am worried that even when businesses like UPS follow state and federal public health and safety guidelines, we are still at risk of a lawsuit from a customer or employee saying we didn't go far enough. Oregon businesses need temporary and targeted liability relief so that businesses like UPS can continue operating and supporting Oregon's economic recovery. Please consider the amendment submitted for consideration and supported by businesses, school boards, local governments and other entities like nonprofits. This is important to all of us.

Thank you,

Kristal Fiser
