### SUMMARY

Requires Governor to facilitate mediation sessions between forest industry and environmental interest representatives. Identifies purposes and completion goal for, and provides for confidentiality of, mediation sessions. Requires joint legislative committee hearing during 2021 regular session regarding mediation process.

Allows person to register with State Forestry Department to receive notice of pesticide applications by helicopter to forestland near person's residence or water intake used by person.

Requires notice to department of proposed or imminent pesticide application by helicopter to forestland. Requires department to give notice of application to persons registered to receive notice.

Requires notice to department upon completion or partial completion of pesticide application. Provides escalating penalties for failures to report. Caps penalties at \$5,000 per day.

Requires Pesticide Analytical and Response Center to accept requests from certain entities for records and data concerning pesticide application by helicopter to forestland. Imposes fine of \$1,000 for pesticide operator failure to timely supply records or data. Prohibits interfering with pesticide application by helicopter to forestland. Makes violation subject to fine of \$1,000 for first offense, or \$5,000 for repeat offense, within five years.

Prohibits pesticide application by helicopter to forestland in proximity to certain locations.

Requires that certain rules apply in Siskiyou Georegion.

Requires that inventoried points of diversion for water use qualifying for spray buffer be entered in department reporting system. Requires report to Legislative Assembly regarding inventory progress.

Declares emergency, effective on passage.

### OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure exempts from public disclosure a pesticide operator's daily spray records and geographic information system data concerning a pesticide application by helicopter to forestland received by the Pesticide Analytical and Response Center from the pesticide operator.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public could gain additional information regarding certain aerial pesticide applications.
