40 (b) The commission shall designate the amount of moneys deposited annually in the universal
41 service fund to be used to ensure basic telephone service. The amount designated under this para-
42 graph may not exceed \$28 million per year.

43 (c) The commission may:

44 (A) Adopt rules to conform the universal service fund to section 254 of the federal Telecommu-
45 nications Act of 1996 (P.L. 104-104), and to related regulations adopted by the Federal Communi-

2 rules is appropriate; and

3 (B) In addition to using the universal service fund to ensure basic telephone service, use the
4 universal service fund to encourage broadband service availability and to provide support to tele-

6 (2)(a) The commission shall establish the price a telecommunications utility may charge its
7 customers for basic telephone service. The commission shall periodically review and evaluate the

12 telecommunications utility described in ORS 759.040.

13 (3)(a) The commission shall establish a benchmark for basic telephone service as necessary for
14 the administration and distribution of the universal service fund. The universal service fund shall
15 provide explicit support to an eligible telecommunications carrier that is equal to the difference
16 between the cost of providing basic telephone service and the benchmark, less any explicit com-

33 subject to the universal service surcharge based on the inverse of the percentage of interstate re-
34 venues utilized for purposes of federal universal service contributions or based on any other method
35 approved by the Public Utility Commission. A retail commercial mobile radio service provider may
36 rely upon the sourcing rules set forth in the Mobile Telecommunications Sourcing Act (P.L. 106-252)
37 to identify revenues attributable to Oregon.

39 cordance with federal guidelines, the intrastate revenues subject to the universal service surcharge
40 based on any one of the following:

41 (A) The inverse of the interstate safe harbor percentage established by the Federal Communi-

43 service contribution purposes, as the interstate safe harbor percentage may be revised from time to
44 time;

45 (B) A traffic study specific to the interconnected voice over internet protocol service provider

7 state as identified:

8 (A) By information itemizing, on the billing statements provided to customers, the charges sub-
9 ject to the surcharge, as may be identified by individual end-user location, the total number of end
10 users and the number of end users at each end-user location; or

11 (B) If information described in subparagraph (A) of this paragraph does not exist, by the service

16 (1) of this section, provided that the percentage does not exceed six percent of the sale of services
17 subject to the surcharge.

18 (f) The universal service surcharge may be listed by a telecommunications carrier as a separate
19 line item in billing statements provided to customers, as prescribed by the commission by rule or
20 order. The commission may not prescribe whether, or the manner by which, a commercial mobile
21 radio services provider or an interconnected voice over internet protocol services provider may list
22 the surcharge in billing statements provided to customers.

23 (g) A service provider required to collect the universal service surcharge shall:

24 (A) Transmit amounts collected pursuant to this section to the commission in accordance with

41 subsection (4) of this section for the provision of pay telephone service.

42 (8) Nothing in this section is intended to grant the commission the authority to impose any re-

30 ond for downloads and three megabits per second for uploads; or

31 (b) Develop broadband service infrastructure that will serve two or fewer residential lo-
32 cations.

33 (7)(a) If the department awards a grant or loan for a proposed project to develop
