

I haven't heard that the legislature in OR was required to give their paychecks to all those in need during this pandemic; yet you ask all landlords not charge rent, forgive debts, not evict during the pandemic but still, we require funds from our rentals to pay bills, taxes, and live on our own. We already provide a very good service to others who are unable to afford housing. We offer them a home to live in at a good price then a bill comes along stating we are no longer able to collect wages. Stop vilifying landlords, stop the discrimination and hurt you cause trying to stop landlords from legally owning a home and renting it. I am a low wage registered nurses who retired upon the income I obtain from rentals and yet I find so much malice towards us because we opted to rent a home we owned. It makes me want to sell it but I can't evict anyone because Salem has made laws preventing me from legally doing what I require for my rental. Please stop this madness and unless all legislative parties want to give away their paychecks to help others than you should NOT force us to do that.

Sincerely,  
Anna Menanno
