

Dear lawmakers,

Please, please consider extending the eviction moratorium. My fiancé lost his job back in March and I only work part time. We've had to rely on rental assistance to pay our rent and bills.

I know that there are many people out there that have lost jobs and are struggling to pay their rent. If the eviction moratorium isn't extended I'm afraid that there will be even more people who will become homeless. It's already an issue but it will become bigger!

Thanks for the consideration.
