

I'm not sure if this is the correct Committee, the one hearing testimony on the moratorium. But, if so...

I wholly support extending the eviction moratorium, rental assistance and assistance to small landlords. I'm doing ok [thanks to Social Security and a small pension] but I woke at 5:00AM worried about the incredible difficulties for so many now. And, the larger issue of economic inequality, which is only growing so much more due to COVID.

Please do all you can to help people.

Thanks.
