

Oppose LC 21 School Immunity Legislation

Chairs and Members of the Committee,

Please do not pass LC 21 to provide schools immunity during COVID. Schools must be safe places for children with disabilities, families, and teachers. Passing LC 21 doesn't make the schools any safer – it simply shifts the burden onto families while taking away access to justice. I'm asking the Oregon legislature to protect families' access to justice by rejecting LC 21.

We all want our children back in school, but LC 21 is not going to help children with disabilities return to school safely.

Thank you for your time,
Ginny Hoke
