

The worst thing about this state is the kniving politics, that's coming from a registered democrat. These antics are disgraceful. You all should be ashamed of yourselves, but I know you're not, because you really don't care about the people of Oregon. If you did you wouldn't have these secret sessions, and you would have done this months ago. I'm embarrassed to say I'm a democrat in this state. Pass short term financing, and then hold meetings with public input. These sneaky bills, do not sit well with many of the people I know. Try doing the right thing for once.
