

I strongly support taking action to extend the eviction moratorium and provide rent assistance/relief in Oregon. As a person employed in the work of crisis response and homeless services, I see firsthand every day how our system lacks the capacity to care for the most marginalized and vulnerable members of our community. Please take action to prevent more individuals and families from losing their stability amidst the cascading disasters resulting from COVID-19, the wildfires, and economic collapse.

Thank you,
Heather Sielicki
Eugene, OR
