

Good Morning,

I can understand the good intentions of this proposal, but what do I tell the tenants who have paid their rent on time and in full? That they shouldn't pay so that what they owe can be forgiven? That they are suckers for paying their rent? Why not legislation requiring the tenants to have to cover any shortages of other tenants? This way, the rental owner can pay 100% of the property taxes instead of the 80% offered by our Oregon Legislators as compensation for having to accept no rent, partial rent and no eviction while being required to maintain safe, sanitary and affordable housing.

This idea is wrong in every way. Please continue to help those Oregonians who need help paying their bills by giving them your money.

Thank you,

K. Brown
