

Lets get honest and "Open Oregon" 😞

Committee... the Public knows full well that we have had so many Covid cases lately simply because Trump is the 1st President to ever do such extensive testing. Now it is used for political tool to diminish Liberty and yet Covid is proving not to be the killer. Lane co 117 new cases today... 2 hospitals and maybe 15 people are in the beds. While all deaths are attributed to Covid I found out yesterday by a nurse that 11 flu's have been contracted in Oregon since 1/1/2020 (lets get real).
