

Will the law make my mortgage company waived 25% of my mortgage?

Will the law make the state reduce my taxes 25% for a property? Well insurance let me off the hook 25%? Will the contractors who make repairs charge me 25% less? Why are you persecuting the landlords?

Please consider the unfairness of this law.

I think we're supposed to all be in this together?

I'm already helping my unemployed daughter by providing a place for her.

My renters are all employed and can pay their rent. Do not give them I'll incentive to do something that will hurt me!

My tenants are not my children!

Will they even have to prove hardship?

Sincerely a small time landlord,

Marla Green

I give you permission to submit this to the hearing.

I wrote you a prayer letter with a few typos and my computer duplicates things. I'm sorry about that. I realize it's 20% but my argument stands.
