

Good afternoon, I own a six plex and a rental home in Salem Oregon. I was out of work for 7 months due to Covid 19 and I am now hearing there is a proposal to consider landlords forgiving 20% of unpaid rent for Covid 19 relief for tenants. I recently paid my annual real estate taxes and received a bill due soon for the annual insurance for these properties. I did not get relief for those big bills and I saved and sacrificed to make sure I fulfilled those obligations. I strongly oppose LC - 18. If the government is passing a \$900 billion package for stimulus, the renters can use some of that money to pay what they owe!

Thank you,

Mike Erwert
