I beg of you to extend the eviction moratorium.

Personally, I cannot afford January's rent.

If I have to leave my home, I will no longer be able to stay here in Oregon at all.

I have no other family here.

I may not be able to afford a plane ticket, and I would be stuck here.

I have a cat, Stellanuna, that this will affect greatly too.

I am living off of SSI and food stamps.

I couldn't afford December rent or electricity.

Christmas isn't even something I have the luxury to think about.

No matter the number of jobs you apply for, they disappear faster than ever to someone over-qualified or someone who held the position before and lost their job.

Covid is worse than ever, and many others are facing this same situation.
