

Good morning.

I am writing in support of LC 18 to extend the eviction moratorium. It's alarming to read that millions of people/families are facing eviction at the end of this month. The fact the moratorium will end during the winter season, is upsetting. The eviction moratorium has been helpful in keeping roof over heads/security/protection from the raging COVID-19 virus. Please continue to keep PDX families safe and sheltered. Also, there is an immediate need for financial/economic resources (rent assistance, groceries, etc.) for the Portland community, particularly communities of color. In this great country, no person should go without. Thank you for your time and consideration.

Sincerely,  
Tonya Jones
