

Dear Members of the Redistricting Committee:

The University of Oregon is an important community of interest that should be preserved in redistricting to ensure effective representation. The proposed "Map A" divides the University into three different House Districts and three different Senate Districts – exactly what the redistricting law seeks to prevent. I support "Map C", which preserves the University as a community of interest and ensures its effective representation.

I also recommend leaving Congressional District 4 as it currently stands. We should not divide communities of common interest, as in compliance with the voting rights act, these communities should not be split. Thank you for your time.

Respectfully submitted,

James Neu
