

Greetings,

I have lived in Oregon all my life. I spent over 50 years in district 1 and currently live in District 2. I have seen a lot in change in Oregon over the years. In recent years I have seen the leadership of Oregon care less and less about what rural Oregonians have to say, and the proposed re-districting map appears to be another attempt to silence rural Oregonians! I understand it can be necessary to update the district maps every 10 years but it should be done so that rural Oregonians still have a voice. I LOVE Oregon and care about what happens in this state! Please keep the district mapping fair so we ALL have an equal say in what happens in our state.

Angela Huntington  
District 2
