

To Whom It May Concern:

We need our districts to be fairly determined and we need fair maps! When re-districting happens, it should not be done to give one political party an advantage over another. It should be done so that the representatives actually represent the values of the community they serve! District lines need to be drawn fairly! It is not fair when the large districts of metro areas are able to speak for the rural districts who don't hold the same values as those in metro areas. Metro areas should not be able to govern the whole state! We need districts that allow Oregonians to have a fair shot of being represented by someone who represents their values! Please make sure the maps are drawn fairly! We need balance in our state, and right now there is no balance! The metro areas govern all! This has to change!

Sincerely,
Pamela Hoffine Hurd
