

Hi, my name is Alison Rhoads. I am a constituent in Eugene, HD14 and CD4. I am not in favor of redistricting map lines to benefit democrats yet again. Democrats will draw the lines to benefit their party so that they may never have a chance of losing power. Redistricting should be agreed on by over 50% of both parties. Not by the democrats' majority power, which allows them to do basically whatever they want without any republican approval. Marginalizing republicans shows hatred and disdain for them and will only further the divide between the People of Oregon. This of course, has seemed like the goal for years now. Please stop the cycle of hate, and allow an agreement between both parties for where the lines should be drawn.

Thank you.
