

Hello. Please do not split out counties. I am against rural county or coastal county issues being voted on by Portland voters. Rural counci live very different than urban counties. Please do not allow communities to be silenced bu splitting rural or coastal community votes. Please stop any redistricting maneuvering for votes. I hope we can rely on our government to do what is right for their varying community needs and lifestyle not just whatever Portland or one political party wants. Thank you for your time.
