

Dear Members of the Redistricting Committee:

The University of Oregon is an important community of interest that should be preserved in redistricting to ensure effective representation. My whole family has graduated from there and we are all part of the community. The proposed "Map A" divides the University into three different House Districts and three different Senate Districts – exactly what the redistricting law seeks to prevent. I support "Map C", which preserves the University as a community of interest and ensures its effective representation. Thank you for your time and work on this difficult process.

Sincerely,

David Donielson
