

Please do not create totally “safe” districts for any legislators. I am tired of the arrogance and non-responsiveness incumbents show to any minority who provides input via email, postal letters, or phone calls to their offices. They have created their own special clubs and ignore anyone not in their group. Ask me for the proof. When they know they have no chance of being unseated they behave poorly toward a minority party member with differing, although useful, input. It is not good for democracy.

John F. Quilter

Congressional district 4

Senate District 7

Representative District 13
