

Testimony for Tillamook County Redistricting,

To Whom It May Concern,

We are appalled there are some who think redistricting and dividing Tillamook County is a good plan after doing this already in 2012. This is a terrible plan just as it was in 2012!

Tillamook County has less than 30,000 people and why someone in Salem thinks it benefits the residents of Tillamook County be divided into 3 districts is beyond us. For decades Tillamook County citizens have worked together for the benefit of all who live in the county north to south, east to west. **House Plan C divides the west coast area of the county, the northern area, and the southern area and is totally unacceptable and ridiculous.**

If any changes should be made, Tillamook County should be put back whole, the way it was before the division made in 2012. Stop dividing the residents of Tillamook County and leave us be. Tillamook County residents were fine for 159 years before people in Salem started messing around with our county district lines in 2012 strictly for voting purposes! Gerrymandering is the term!

The only acceptable plan would be House Plan A which returns Tillamook County to one whole district, not three pieces! We say NO to any other plans for redistricting Tillamook County.

Thank you.
