

Dear Oregon House and Senate Representatives,

Chairs Taylor and Salinas, Vice-Chairs Knoop and Boshart-Davies and members of the redistricting committee, thank you for your service to Oregon's communities.

My name is Lisa Fragala, my pronouns are she/they and I live in Lane County, House District 8. I also serve as a member of the Lane Community College Board of Education and the City of Eugene's Planning Commission. Lane County has been my home for over 25 years.

First of all, I want to express my support for proposed Congressional Map A and the manner in which it is an effective redistricting for Lane County. This map keeps all of Lane County intact and much of the central and south coast. Lane Community College has campuses in Eugene, Cottage Grove, and Florence and this map makes sense for the communities the college serves and the transportation links that our students utilize. Plan B splits up Lane County and essentially divides the community the college serves.

As for the maps proposed for Oregon House Districts, both A & C are far superior to other proposals. However, from my perspective one of these maps does not serve my communities' interests or recognize the natural, transportation or political boundaries that we live our lives in. Proposed Map A wiggles its way through my neighborhood and effectively divides a connected community, the Friendly St. neighborhood. This

community sends its children to schools together, it has developed emergency response systems, it has walkable development for business and recreation, and we celebrate together. It is in the best interest of this community that we have a single representative and not be divided by redistricting. Proposed Map C for our community is a much better proposal. The lines follow street and natural boundaries that make sense for Eugene's communities and it does not divide the University Neighborhood into 3 pieces.

Once again, I'd like to thank you for all of your work and to express my support of proposed Map A for Congressional districts and proposed Map C for Oregon House Districts.

Sincerely,

Lisa Fragala
(she/they)
