

Hello - I sent an email on state reps, and now I'd like to weigh in on federal.

I love Rep. Peter DeFazio - this man works hard for our district. I don't understand how the lines are drawn for this district; it doesn't make sense that Peter has to work so hard against the 'Reds'. I want the district to make sense so that the right people are elected.

Granted, the 'other side' thinks their people are the right ones, so yes this is a conundrum. Personally, if good things in God's eyes happen because of an elected official, then that's the right person for the job, not a person who seems to hate everything that is good.

The rural areas have too much control in Oregon and they are unworthy.
