

Dear Members of the Redistricting Committee

The University of Oregon is an important community of interest that should be preserved in redistricting to insure effective representation. The Proposed "Map A" divides the University into three (3) different House Districts and three (3) different Senate Districts which is exactly what the redistricting law seeks to prevent. I support the "Map C" which appears to preserve the University as a community of interest and ensures its effective representation.

Sincerely,

William Blair
