

Hello,

I just wanted to give you my written testimony on why your redistricting does not make sense. Looking at the map, it is showing you want to make Tillamook County part of Salem now and that does not make any sense. Salem representatives know nothing about the Oregon Coast, especially Tillamook County. We like our small town and local businesses and we like the way we live our lives. We don't need any representative from the city making decisions for us to basically turn our cute little town into a rundown homeless eye sore like they have done to their own city of Salem and Marion County. We don't need you to run our local businesses out of town, put people out of jobs, and create more laws than necessary. You are doing a terrible job making decisions for Oregonians already, we don't need to mess up are small town more than you already have. Quit cheating for votes and control and get real for once. I know you are all money hungry communists, but not all of us want people to fail and the state to burn you like do. Redistrict things fairly and quit being such jerks to the ones who may or may not have voted you in. We all know most of you cheated to get into your positions and get paid extra to be tyrants. Terrorize your own city and leave our small town alone. I hope karma serves you all soon and you all reap what you sew.
