

Dear Members of the Redistricting Committee:

I live in Eugene within walking distance of the University of Oregon. I **support** the State House and State Senate districts **Map C** because it keeps U of O whole rather than splitting it three ways as does Map A. This community of interest should be preserved to ensure effective representation.

Regarding the Congressional maps, I support **Plan A**. This map appears to preserve communities of interest in CD4 and unite communities of interest in southern and eastern Oregon.

Sincerely,
Susan Cundiff
